Instructions	Shake the spray well before use. Apply directly using the spray at a distance of about 20 cm from the surface. For this, it is important to bleed the pump after each use, emptying the pump upside down. Spare nozzles are sold separately for varied effects and lines. One of these serves in particular to pour the paint into a cup and use it as liquid paint. Apply on clean and degreased surface. For best results on porous surfaces such as raw wood, it is advisable to apply white or black Gesso decoSpray an undercoat. Hold can upright during use. Handling: format adapted to grip. Ideal for most surfaces, even those with difficult access. Low pressure for optimum accuracy. Paint stains can be removed with soap and water in the first 20 to 25 minutes after application. Once completely dry (12h), decoSpray is indelible, permanent and weather-resistant (outdoor use).
